

Power Chef™ Electric Grill

NEW!

Just plug it in!
PowerChef simply plugs into a standard 120V outlet.

An electric grill that's built to perform? Searing is believing.™

Introducing the award-winning PowerChef™, innovation you expect from the name you trust.

PowerChef sears and cooks food fast and easy with mouth-watering results. Use the manual mode or let PowerChef's automated program tell you exactly when it's time to flip and when to serve. PowerChef also eliminates the worries and hassles of gas grills – no hot spots, empty tanks, broken igniters or flare-ups. PowerChef takes the guesswork out of grilling and lets you cook like a pro.

Power Chef™ Electric Grill

Features and Benefits

- Powerful and compact – ideal for almost any location including backyard decks and patios.
- Perfect for apartment and condo balconies where gas grills are impractical or are simply not allowed.
- All 216 square inches of the grilling surface deliver powerful, even temperatures with no hot spots.
- Restaurant-quality stainless steel construction for long-life and durability.
- Plugs into a standard 120V power outlet.
- Stainless steel double-wall oven construction.
- Large concealed storage cabinet.
- Removable drip cup for easy clean-up.
- Upper warming rack perfect for vegetables, buns, etc.
- 6 convenient tool holders keep cooking area neat and tidy.
- Durable wheels for easy portability.
- Easy to assemble.

evensear™
ACTIVE HEAT TECHNOLOGY

Active dual element (patent pending) sears while it cooks by heating food directly.

The upper searing element (stainless steel cooking surface) reaches 650° F to lock in flavor and juices.

The lower cooking element simultaneously provides precise, even heat.

Innovative Flip-up Element for Rotisserie Cooking

Flip up the dual element to convert it to a rotisserie element – this feature eliminates flare-ups, meaning perfectly cooked, juicy roasts every time.

*Rotisserie kit optional.

Exclusive Control Technology (patent pending)

With a few easy steps the electronic controls produce perfect cooking results every time without any guess work. Select manual control to cook the old-fashioned way or create a custom program to simplify favorite meals.

Program Mode

Program the type of food, thickness and how well to cook the food. The control chimes when it's time to flip and time to serve, and in case of no response, automatically reduces to low.

Manual Mode

Select heat output manually for precise control.

Keypad Lock

Convenient keypad lock prevents children from adjusting the controls.

Favorite Mode

Enter a custom program for a favorite food.

Specifications

Model #	Description	UPC	Dimensions (WxHxD)	Weight	Watts	Volts	Amps
