

Dimplex® outdoor Living™

PowerChef® Convertible Electric Grill

CBQ-120-MAN

This new, sleek design shrouds the high-performance grill within. Dual elements spread searing heat from corner to corner and the convenient manual control makes it easy to operate.

- Durable, weatherproof matte black finish with gloss black accents.
- Large drip tray for easy cleaning.

Simple, precise manual control

Dual Element Cooking System

- Large enough to cook for six people.
- Cooks as much as a grill twice its size because every square inch performs with the same power and no cold spots.
- EvenSear Dual Element Cooking System:
 - The entire 216 sq. in. grilling surface reaches 650° F searing temperature
 - The lower cooking element simultaneously provides precise, even heat.
- Manual cooking mode allows for complete cooking control.
- Portable – features a locking lid design that allows the lid bar to serve as a carrying handle
- 120 Volts / 1,600 Watts / 13.3 Amps

Pedestal base and shelves
