

Just plug it in!
PowerChef simply plugs into a standard 120V outlet.

Shown with stand and side shelves (sold separately)

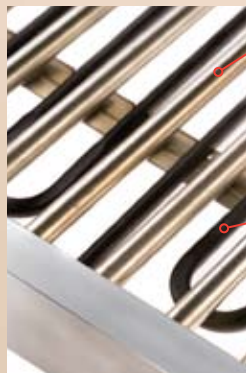

PowerChef Convertible tabletop electric grill

Shown with wall mount bracket and side shelves (sold separately)

- Powerful cooking performance in a stylish design
- Innovative touchpad and control technology
- 216 square inches of grilling surface with no cold spots
- Effective grease collection system

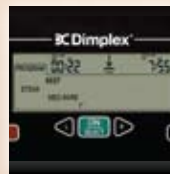

Dual Element Cooking System

The upper searing element (cooking surface) reaches 650° F to lock in flavor and juices.

The lower cooking element provides precise, even heat.

Exclusive Control Technology

Electronic Controller
Automatically programs the cooking time and temperature for ideal results.

Manual Operation
Select heat output manually for precise control.
